

Elizabeth House

Acute Mental Health Care

About Elizabeth House

Elizabeth House Hospital in Leicester, is a 29-bed acute inpatient service with separate wards for men and women who have a mental health condition and are in crisis or suffering an acute episode. The service provides a safe and stabilising environment where individuals can receive the care and support they need during challenging times. Whether patients are informal or detained under the Mental Health Act, our priority is to ensure their safety and wellbeing while promoting their recovery journey.

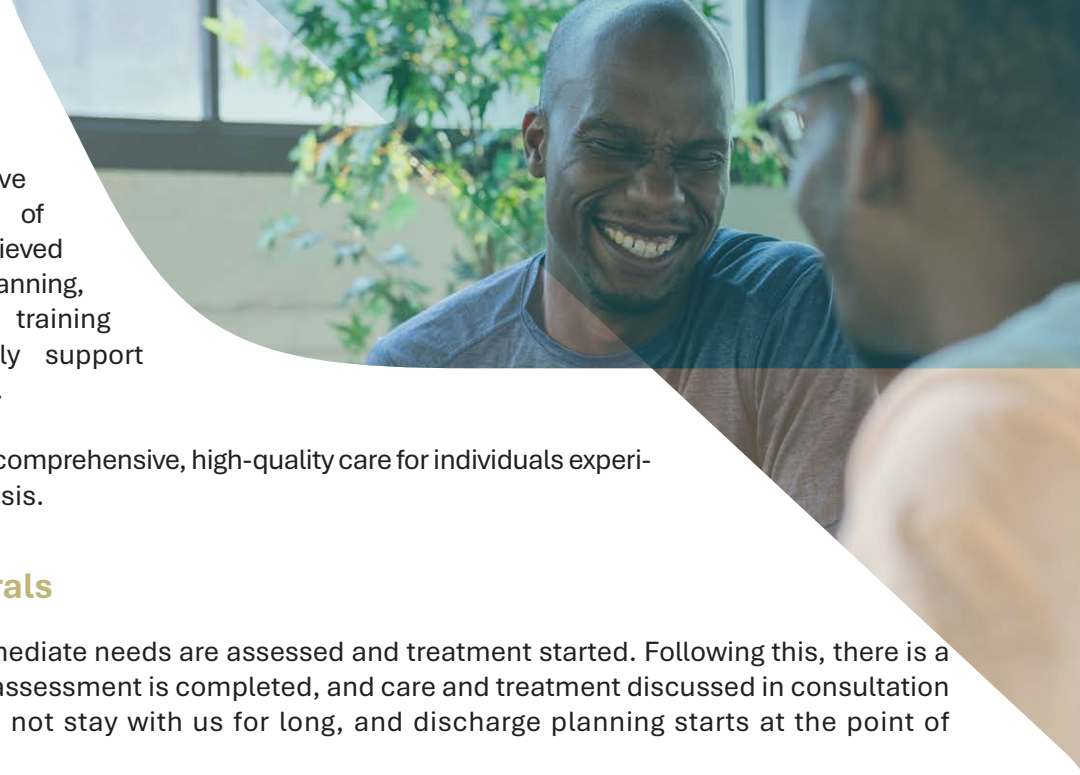

Multidisciplinary Approach

Our care pathway at Elizabeth House Hospital is designed to provide structured and timely care that supports both immediate stabilisation in readiness for moving on to a less acute setting. Our dedicated Multidisciplinary Team (MDT) includes:

- Consultant Psychiatrist
- Doctors
- Registered Nurses
- Physical Health Lead (RGN)
- Psychologist
- Psychology Assistants
- Activity Coordinators
- Support Workers

Our Approach

We have a least restrictive approach, with minimal use of special observations. This is achieved through patient-centred care planning, highly skilled staff, and training programmes that proactively support individual needs and recovery.

We are committed to providing comprehensive, high-quality care for individuals experiencing acute mental health crisis.

Admissions and Referrals

On admission, safety and immediate needs are assessed and treatment started. Following this, there is a full MDT meeting where a full assessment is completed, and care and treatment discussed in consultation with the patient. Patients do not stay with us for long, and discharge planning starts at the point of admission.

The Central Referrals Team coordinates enquiries, information gathering, assessment and funding discussions and keeps referrers informed throughout the process.
